### **DETAILED ACTION**

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on November 18, 2004 has been entered.

### ***Reasons for Allowance***

2. Applicants' amendments and remarks submitted November 18, 2004 have been fully considered, and are found persuasive. Particularly, the Declaration shows the benefit of potassium phosphate. As to the second species, potassium sulfate, since potassium sulfate and potassium phosphate share the same cation and have similar anion (both phosphate and sulfate are considered as bulky and soft), there would have been a reasonable expectation that the two would be function similarly.
